

A close-up photograph of numerous bamboo tubes, cut into sections, showing their hollow interiors and natural textures. The tubes are arranged in a dense, overlapping pattern, creating a rich, organic background.

2021 AMERICAN BAMBOO SOCIETY ART CONTEST

Calling Bamboo Artists

Adult Bamboo Art Competition:

Bamboo speaks to each of us in its own way, writing its story on our hearts and whispering its thoughts in our dreams. We each have come to be enticed by bamboo in our own ways. Some of us love to grow and interface with the plant while others are drawn to the multitude of its uses. This year we would like to focus on the bamboo stories and the deep connection that is created as a result.

The art piece can be 2D or 3D and needs to be submitted in digital form by August 31st 2021. We will contact the winner and invite them to give a presentation in person or online at the conference. An article featuring the winner will be published in the ABS quarterly magazine as well as highlighted on social media. We welcome all entries and look forward to seeing and hearing your bamboo story.

A horizontal row of 20 small, solid orange circles.

Kids Bamboo Art Competitions:

Bamboo is a plant with so much potential for changing the world.

Our hope is to encourage young people to get involved in the bamboo community so as to inspire the next generation of designers and builders in a more sustainable way. This year we are focusing on the story of bamboo and what that means to you. This could be the story that bamboo tells you or what you see when you look at bamboo. How does bamboo inspire you? What stories does bamboo have to tell?

This is a 2D format because the winner will have the images promoted on t-shirts, water, bottles, and mugs that will be available for sale to fund next year's competition as well as highlight the amazing ideas that the youth bring to the bamboo community. We love our next generation and the creativity they bring to this forum. We will include a display of the art at the annual bamboo conference in October. We will also invite the winner to speak about the project either in person or online. The winners will be featured in our quarterly newsletter and on social media. We look forward to expanding our bamboo community and seeing what bamboo means to you.
